IGNYTE ASSURANCE PLATFORM™

IGNYTE CLOUD COMPLIANCE AND GOVERNANCE

Ignyte Assurance Platform: Simplifying Cloud Compliance and Governance to ensure successful cloud deployment and management.

OVERVIEW

Today, cloud computing has vastly changed the way organizations approach information technology. However, enterprises now consider the increased popularity of the intrinsic and distributed technology as a threat to compliance and governance. Providers and users must find means to balance the benefits and compliance requirements across diverse regulations and laws affecting cloud computing.

At the same time, enterprises have traditionally relied on manual data aggregation tools to assess their cloud and IT compliance posture, which is slow and labor-intensive. In the wake of increased security risks and compliance requirements, companies are shifting from periodic to continuous compliance tracking. Compliance and governance in the public cloud environment demand efficiency and agility.

Designing and deploying a cloud computing strategy is a complex operation that requires proper governance to ensure appropriate management of multiple cloud computing services for cost control, efficiency, and enhanced integration.

CLOUD GOVERNANCE WITH IGNYTE

Organizations need a solution that simplifies cloud computing compliance and governance, enabling them to harvest maximum benefits from the technology while managing an array of cloud security issues.

With Ignyte Assurance Platform, enterprises can identify required compliance frameworks in the cloud. Through Ignyte solution, organizations can conduct program assessments based on popular industry processes to understand their profile and determine their desired cloud end-state capability and maturity. During the process, enterprises can identify and prioritize gaps for resource allocation. Through Ignyte Assurance Platform, companies can define and assign roles and functions required for a desired cloud strategy.

IGNYTE CLOUD COMPLIANCE AND GOVERNANCE
IGNYTE ASSURANCE PLATFORM™

KEY FEATURES

- Efficient internal audit processes
- Automated data aggregation in real-time
- Detailed reporting module for status and compliance history
- Industry best practices and built-in compliance suites for popular standards, such as PCI DSS, GDPR, HIPAA, FedRAMP, and FFIEC.
- Automatic control mapping
- Internal controls management

KEY BENEFITS

- An automated compliance management platform that automates and simplifies collection and organization of information and evidence
- Faster time to compliance across public cloud environments
- AI-enabled management for measurable and repeatable cloud compliance and governance processes
- End-to-end compliance management and governance in cloud environments
- Advanced cyber threat vulnerability management and risk oversight
- Abridged errors, improved efficiencies, and reduced compliance costs over time.
- Up-to-date regulations, standards and guidelines related to cloud technology

WHY IGNYTE

Ignyte Assurance Platform is built using robust machine learning algorithms which provide the functionalities used to automate the full Risk management Framework (RMF) workflows, System Security Plans (SSPs), Plan Action and Milestones (POA&Ms), Security Assessment Reports (SARs), or any other NIST publications. Ignyte's AI-enabled compliance and governance platform helps organizations from different industries implement simplified, measurable, and repeatable GRC processes. Enterprises can keep up and comply with the ever-dynamic regulations, standards, and guidelines in cybersecurity.

Ultimately, Ignyte offers GRC automation and capabilities that establishes the foundation for meeting security and compliance goals while minimizing reactive incident response.

ABOUT IGNYTE ASSURANCE PLATFORM

Ignyte Assurance Platform™ is a leader in collaborative security and integrated GRC solutions for global corporations. For corporate risk and compliance officers who depend heavily on the protection of their resources, Ignyte is the ultimate translation engine for simplifying compliance across regulations, standards and guidelines. The Ignyte platform is used by leading corporations in diverse industries; such as, Healthcare, Defense, and Technology. Ignyte is headquartered in Miamisburg, Ohio and can be reached at www.ignyteplatform.com. PH: 1.833.IGNYTE1 or (937) 789-4216
